Tuscan® Beige

Tuscan® Sandstone
A New Zealand favourite

FLOORING SOLUTIONS

With a uniform background brought to life by rich, timber-like veining, Tuscan Beige has a warm beige hue that complements natural materials such as timber and landscaping. Tuscan® Sandstone is available in a large range of sizes, textures and shades.

Tuscan® Sandstone is an ideal choice for flooring and paving, both inside and out. Its non-slip finish makes it perfect for wet areas, such as bathrooms and laundries, and outdoors as a safe paving surface around pools, and on steps and paths. The natural beauty of sandstone will enhance every room in your house, providing a visual connection from the entry to living spaces, and through to terraces and outdoor entertaining areas.

Not only does it have huge aesthetic appeal, but Tuscan® Sandstone is also a highly durable and hard-wearing flooring option that requires minimal maintenance. Tuscan® Sandstone is a versatile material that can be carved and shaped to achieve detailing such as bull-nose edging on stairs and as cappings. Because it remains cool underfoot, Tuscan® Sandstone is ideal for use around pools and on patios.

1 The warm tones of Tuscan Beige complement the timber in this home

2 Sandstone tiles create flow from indoor to outdoor areas
