Tuscan® Moiré

Tuscan® Sandstone  
A New Zealand favourite

FLOORING SOLUTIONS

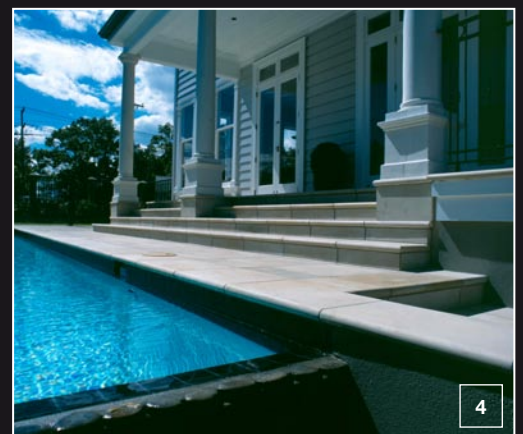

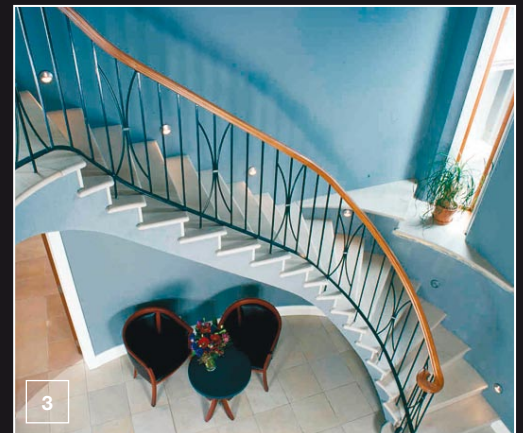

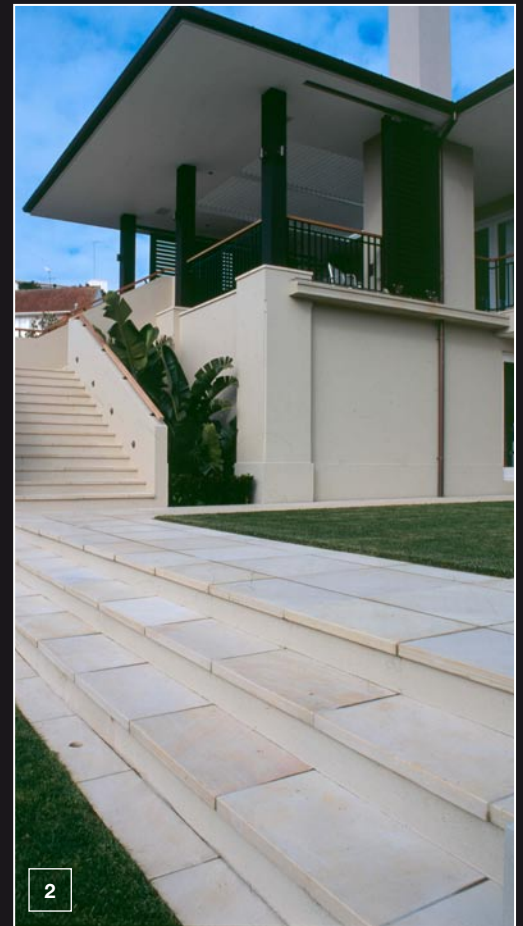

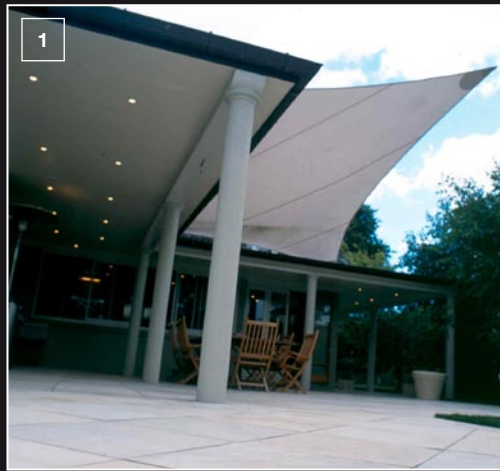

A warm antique white with soft ochre tones, Tuscan® Moiré is popular for its understated beauty. It offers timeless appeal for traditional settings or a subtle option for more contemporary designs.

Tuscan® Moiré is an ideal choice for flooring and paving, both inside and out. Its non-slip finish makes it perfect for wet areas and outdoors as a safe paving surface around pools, and on steps and paths. The natural beauty of sandstone will enhance every room in your house, providing a visual connection from the entry to the kitchen and living spaces, and through to terraces and outdoor entertaining areas.

Not only does it have huge aesthetic appeal but, because it's seven times harder than concrete, Tuscan® Sandstone is also a highly durable and hard-wearing flooring option that requires minimal maintenance. And despite being dense, sandstone is a versatile material that can be carved and shaped to achieve detailing such as bull-nose edging on stairs and around pools. Because it remains cool underfoot, Tuscan® Sandstone is ideal for use around pools and on patios.

Tuscan® Sandstone is available in a large range of sizes, textures and shades.

- 1 Tuscan Moiré is the perfect choice for outdoor entertainment areas
- 2 An arised-edge finish gives these exterior treads a clean look
- 3 Sandstone is a great option for staircase applications
- 4 A versatile solution for terrace and pool surrounds
- 5 A versatile solution for terrace and pool surrounds
- 6 Tuscan sandstone can be cut to accommodate curves and corners
