

STONECLADD VENEER

Looking at bluestone for a new project or to clad an existing wall? Then you must see the Urban Series of basalt walling from Original Stone.

Urban Basalt is traditional solid stone as you all know it; we have simply processed it into a veneer for better application, distribution and use of resources.

Similar colour and texture similar to Auckland's Mount Eden and Winstone Quarries and slightly lighter than Dunedin's Blackridge, making it suitable for regional redevelopment or improvement including historic buildings.

Advantages

- Versatile application, now installed over...
 - Structural timber frame for most applications.
 - Block work or solid pour concrete for retained areas, structural masonry buildings etc.
- Quickly installed by licensed applicators.
- No tooling or waste
- 15 year warranty.
- Anti graffiti Coating
 - Easily remove spray paint, vivid etc
 - No leaching of lime or efflorescence like traditional stone walls.

Many other advantages.

Contact us for more details:

177 Marua Road, Ellerslie
P.O. Box 128125,
Remuera, Auckland
