

WESTLANDS SCHIST

NEW THIS SEASON!

Westlands schist is part of the amazing new Sumner™ Collection of traditional stonework.

Its warm brown and grey mica tones make it easy to use with today's modern colours systems, and it is packaged in easy to handle boxes.

Ideal for fireplaces, retaining walls, house cladding and columns. View our free demonstration video of us installing columns on our website.

This is real stone. Described by one stonemason as: "better than traditional stonework"

If you are using stonework to enhance your project, then you must see our Sumner™ Collection.

Delightful stonework for today's building projects.

Full 15 year full warranty when installed by one of our approved applicators, and is available nationwide at StoneOnline.co.nz

Sumner™ Schist Collection
